Math Teacher (m|f|d)
- Vivid Learning with Structure -

From October 2026
Full- or Parttime (60- 100%)

The Kinderzeit School is a state-approved primary school and is located near Frankfurt am Main, directly on the field and meadow. The children learn in mixed-age groups, inclusively, in a bilingual environment and with a very good student-teacher ratio.

As a teacher, you are a "learning coach" here and accompany the children in small groups on their individual path. As a team, you create the learning and living environment for the children again and again every day. With a lot of desire, knowledge and intuition, you create lively learning, also in nature, with fun in discoveries and challenges, joy in doing, inspiration, variety, mindfulness, singing, security and laughter.

We are pleased if this task inspires you, because

- You love to get children excited about math and to accompany them safely in their initial lessons
- You would like to contribute and apply your experience and repertoire of didactic knowledge gained in primary school
- the ideas and basic values of the Kinderzeit school are in line with your ideas of a good school
- You are enthusiastic about working in team teaching
- it is a matter close to your heart that every child is well accompanied
- it is important to you to maintain a good relationship with the parents of the children

This is what sets you apart:

- You speak English at level C1 (or C2)
- You understand German very well (B1 to B2) - this is very important
- Broad didactic knowledge and experience, also according to Maria Montessori
- Enthusiasm
- Class-Room-Management with heart and humor
- Enthusiasm for outdoor learning

This is what you can expect:

- A dedicated, very friendly team
- Well-equipped and beautiful rooms
- Located directly on the nature reserve
- The opportunity for further training

We look forward to hearing from you!
